PROFESSIONAL SUMMARY

Early-career AI Engineer with research internship experience in LLM fine-tuning and Arabic NLP, supported by hands-on projects in multi-agent orchestration and AI application deployment. Fine-tuned ALLAM and MAREFA using QLoRA and built agent workflows with the OpenAI Agents SDK. Technical background in Python, PyTorch, Hugging Face, RAG, FastAPI, and Docker, with a focus on applied generative AI and agent-based solutions.

TECHNICAL SKILLS

LLMs & NLP: Generative AI, Arabic NLP, Transformers, fine-tuning, QLoRA, retrieval-augmented generation (RAG), prompt engineering, vector databases

AI Agents: OpenAI Agents SDK, LangGraph, CrewAI, AutoGen, multi-agent systems, tool calling, agent handoffs

Development & Deployment: Python, FastAPI, REST APIs, Docker, Linux, Gradio, Hugging Face Spaces, CI/CD fundamentals

ML & Cloud: PyTorch, TensorFlow, Hugging Face, AWS Bedrock, AWS SageMaker | **Additional languages:** C++, Java

EXPERIENCE

ML & AI Research Intern | Electronics Research Institute

Jul 2025 - Jan 2026

- Fine-tuned ALLAM and MAREFA large language models using QLoRA for English-to-Arabic machine translation.
- Built data preprocessing and tokenization pipelines to support reproducible model experiments.
- Optimized transformer inference workflows for Arabic NLP tasks and evaluated translation quality.

SELECTED AI PROJECTS

Agentic AI Deep Research System

Built an asynchronous multi-agent research pipeline using the OpenAI Agents SDK, combining agent orchestration with structured task execution.

AI Multi-Agent Sales Automation

Developed a cold-email workflow using tool calling, agent handoffs, and automated task coordination across AI agents.

Arabic Text Summarization System

Fine-tuned AraBART for Arabic summarization and achieved a ROUGE-L score of 60.4.

AI Portfolio Assistant Chatbot

Built and deployed an LLM-powered portfolio assistant on Hugging Face Spaces.

EDUCATION

B.Sc. in Artificial Intelligence | Cairo University

Sep 2019 - Jul 2023 | GPA: 3.12 / 4.00

PROFESSIONAL DEVELOPMENT & ADDITIONAL EXPERIENCE

In progress: Master AI Agents in 30 Days (Udemy); AWS AI & ML Scholars (Udacity)

Additional learning: AI and Machine Learning Foundations (SprintUp); Quantum Artificial Intelligence (Ericsson)

Mandatory Military Service: Egyptian Armed Forces | Dec 2023 - Dec 2024
